

The Aerial Tram

Travel from the Pacific halfway to the Atlantic, & board a Swiss-built "ski-lift-style" (aerial gondola) tram through the canopy of the forest. At the top of the hill, we'll walk up a spiral-winding (mildly inclined, wheelchair-accessed) ramp to the Observation Tower. Here we can view part of Gaillard Cut, the Chagres River, the Canal's watershed & the town of Gamboa.

Tour Highlights:

Live a priceless journey as we glide near the canopy of the Tropical Rainforest on a 6-passenger Swiss-built gondola. As we climb close to 300 feet, we're able to see multi-colored shades of the trees, hear how the jungle "speaks" to us, smell the "green emissions" ... & thus witness all of Nature's senses. Flora & fauna at its best. Upon descending from the gondola, walk up 100 ft. above ground on a spiraled staircase, reaching an Observation Tower allowing us unrestricted, 360-degree view of the area.

We will also visit various Exhibits where fish, reptiles, & butterflies are displayed. Additionally, a very unique Orchid Farm shows many of the numerous species nestled in this priceless ambiance.
